

## **Biographical Sketch**

### **Stefan Eom**

May 2010

As the Technical Lead for the Financial Management Modernization Initiative (FMMI), Stefan is responsible for spearheading the technical team for the implementation of the FMMI COTS solution including the rollout of each agency into FMMI based on a prescribed schedule. His technical team focuses on candidate systems and advance capabilities as well as technical solutions of FMMI. Stefan has over 20 years of experience in the information technology field, managing all phases of development of numerous enterprise-wide, mission-critical systems.

Stefan earned Master's degrees in Business Administration and Finance in 1996 from Robert H. Smith School of Business at the University of Maryland and a Masters degree in Computer Science in 1992 from West Chester University.
